SUMMARY

Motivated Data Engineering student with a solid foundation in AI and Big Data technologies. Experienced in designing database systems and optimizing data flows. Looking for a challenging environment to apply my skills and contribute to efficient data solutions.

WORK EXPERIENCE

CÔNG TY TNHH KINH DOANH THƯƠNG MẠI LỤC THỦY (INTERN DATA ENGINEER) Jan 2025 - May 2025

- Design and build a database and data warehouse system to address the shortcomings of the company's current data storage solution (LarkBase).
- Create new data-crawling channels for TikTok, Zalo, and Gmail for market analysis and integrate needed data into the data warehouse.
- Implement an ETL pipeline to move data from LarkBase to a staging area and then store it in SQL Server with support for slowly changing dimensions (SCD).

TRUYỀN HÌNH TƯƠNG TÁC VIỆT NAM - VTVLive (INTERN DATA ENGINEER) May 2025 - Sep 2025

- Processed and analyzed large-scale game and telco datasets.
- Designed and implemented a data warehouse and data mart architecture to optimize analytical performance and reporting.
- Built end-to-end ETL pipelines (Python, Airflow, SQL Server) from source databases through staging, transformation, and warehouse layers using SQL and Python.

FPT SOFTWARE (INTERN DATA ENGINEER) Dec 2025 - Now

- Participate in the design and processing of data pipelines.
- Querying and testing data quality on Google BigQuery
- Collaborated with the team in an Agile environment using Jira and Confluence for task management

EDUCATION

Bachelor of Artificial Intelligence Nov 2022 - Now

FPT University

- Major in Artificial Intelligence (Applied Data Science).
- Cumulative GPA: 8.3/10
- Relevant Coursework: Data Science, Machine Learning, Deep Learning, Computer Vision, Natural Language Processing, Big Data.

ADDITIONAL INFORMATION

- **Technical Skills:** Data Engineering, AI Engineering
- **Side Project:** E-commerce Data Analytics Platform (AWS), Handwritten Receipt Processing System (OCR, LLMs,...), Cooking Recommendation Chatbot (Kafka, RAG,...)
- **Certifications:** Big Data course Samsung Innovation Campus (2025), IBM AI Foundations for Everyone Specialization.
- **Awards/Activities:** Top 7 student has highest result in Big Data course of Samsung Innovation Campus.
