The goal of supplier__ should be supplier performance improvement. (NHUNG HOÀNG)

- A. selection
- B. evaluation
- C. identification
- D. examination

B

Which of the following factors in the PESTLE analysis framework pertains to government policies and their impact on the economy or industry?

- A. Economic factors
- B. Social factors
- C. Political factors
- D. Technological factors

C

(Giải thích: PETSLE:

1. Political factors
2. Economic factors
3. Social factors
4. Technological factors
5. Legal factors
6. Environmental factors)

PESTLE analysis is particularly crucial for industries like tourism and agriculture due to the importance of which factor?(NHUNG HOÀNG)

- A. Economic factors
- B. Technological factors
- C. Environmental factors
- D. Social factors

C

(Giải thích: PETSLE:

1. Political factors
2. Economic factors
3. Social factors
4. Technological factors
5. Legal factors
6. Environmental factors)

Which PESTLE factors involve innovations in technology and their impact on the industry and market?(NHUNG HOÀNG)

- A. Political factors
- B. Social factors
- C. Technological factors
- D. Environmental factors

C

(Giải thích: PETSLE:

1. Political factors
2. Economic factors
3. Social factors
4. Technological factors
5. Legal factors
6. Environmental factors)

The P in PETSLE analysis is denoted for_____

- A. Political
- B. Progress
- C. Procurement
- D. Process
- E. Purchase

A

What type of factors in the PESTLE framework include laws and regulations that affect the business environment?

- A. Economic factors
- B. Legal factors
- C. Social factors
- D. Environmental factors

B

In PESTLE analysis, what type of factors include cultural trends, demographics, and population analytics?(NHUNG HOÀNG)

- A. Economic factors
- B. Social factors

B

D

In order to save additional time, all types of requests can be run in an ____ system.

- A. integrated
- B. e-sourcing
- C. categorized
- D. preferred

B

Which activities below are the correct definition of procurement?

- A. Procurement involves the process of selecting vendors, establishing payment terms, strategic vetting, selection, the negotiation of contracts and actual purchasing of goods.
- B. Procurement refers to participating in the development of requirements and their specifications; managing value analysis activities; conducting supply market research; managing supplier negotiations; conducting traditional buying activities; administering purchase contracts, managing supplier quality; and buying inbound transportation.
- C. Procurement is the overarching function that describes the activities and processes to acquire goods and services.
- D. All the above are correct

D

Which of the following is not a strategic supply management activity?(073-356-8678)

- A. Activity Based Costing
- B. Environment Monitoring
- C. Integrated Supply Strategy
- D. Commodity Strategies
- E. Data Management

A

Despite significant investments in technology by most companies, procurement organizations typically lack the caliber of data they need to do their jobs. You cannot manage what you cannot see, and poor data is a systemic procurement issue found across companies of all types and sizes. In the procurement world, this counterintuitive but stunningly common problem is called poor " ____".(NHUNG HOÀNG)

C

A. Spend Capability

- C. Spend Visibility
- D. Spend Manageability

In terms of strategic sourcing, which of the followings is not an instance of advanced optimization strategies?

- A. SKU rationalization
- B. Demand alteration or elimination
- C. Changes in buying or use processes
- D. Reintermediation of middlemen

D

How did the collaborative approach differ from traditional supplier negotiations?(NHUNG HOÀNG)

- A. It focused solely on cost reductions without considering other factors.
- B. It involved one-way communication with suppliers.
- C. It encouraged suppliers to act independently without input from the customer.
- D. It fostered inclusivity, transparency, and mutual problem-solving.

D

Better alignment of sourcing and business objectives allows the business to achieve higher business performance with higher __ and minimal supply chain ____.

- A. efficiency; risks
- B. effectiveness; risks
- C. efficiency; waste
- D. effectiveness; waste

A

The fundamental difference between collaborative relationships and supply alliances is the presence of cost measurement and information technology in alliances.(NHUNG HOÀNG)

- A. TRUE
- B. FALSE

B

What is the potential consequence of negotiating too close to a deadline?

- A. Getting a better deal due to time pressure
- B. Making the other party feel intimidated and close up
- C. Wasting time on a deal that was never going to happen
- D. Being too desperate to make a deal

D

What is the danger of having an inflexible negotiation strategy?

- A. It wastes time trying to get a deal that was never going to happen
- B. It prevents the formulation of backup plans
- C. It causes the other party to feel intimidated and close up
- D. It does not allow for twists and turns in the negotiation process

D

What is a key area where procurement is typically seen as well-aligned within an organization?(NHUNG HOÀNG)

- A. Sales generation
- B. Marketing and brand management
- C. Operational efficiency
- D. Customer service improvement

C
